

SOS: Save Our South Bank

Join our campaign to protect London's unique open space.

Please sign our petition and help us Save Our South Bank.

The South Bank is a vibrant hub of culture and heritage in London, attracting millions of visitors every year. [We must ensure it stays that way.](#)

We acknowledge the need for redevelopment of this site. However, in such a treasured area of London for locals and tourists, neighboured by listed IBM and National Theatre buildings, [the design must protect and enhance rather than dominate its surroundings.](#)

We are urging decision-makers Lambeth Council to [reject the current proposal for this development](#), in favour of a smaller design that complements the surrounding area and adds value, for the local community and London as a whole.
